

CONGERS FIRE DISTRICT NEW BUILDING INFORMATION

N. Route 9W & Dr Davies Rd

Current Lake Rd Firehouse

Currently both buildings are in the evacuation zone if there was a train incident.
Current apparatus is unable to safely fit inside.
Current building is 4700 square feet.
Current building was built in the 1930's on a lot the size of the existing building.
Currently we have to pull the trucks outside for the volunteers to get inside the truck.
No room for expansion. Our generator is currently on the VMA property.
Weekly truck maintenance must be done outside in all kinds of weather.
Current building is affected by train traffic making it difficult for volunteers to respond to.

Proposed Building

N Rt. 9W & Dr. Davies Rd

Average yearly tax increase of \$100 per household.
Proposed building will be more accessible to our volunteers.
The new site provides access to our volunteers unaffected by the train on Lake Rd.
The new building will have room for "in house" training and truck maintenance.
The new building is 20,343 square feet.
The districts only fire whistle will remain on the building at Lake Road.
